INTERAVIA
Aerospace Review

INDEX FOR 1984

SUBJECT INDEX

AIR TRANSPORT

Help for Third-World airlines: 1/12
European air transport structure: Revolution or evolution – *D. Woolley:* 1/52
Wooing the full-fare passenger – *D. Woolley:* 1/55
The economic crisis arrives late: UTA's René Lapautre talks to Interavia: 1/57
Selling simulation experience: airlines and manufacturers venture into the market – *D. Boyle:* 1/63
US carriers face further losses in 1984: 2/102
Europe's airlines report strong cargo growth: 2/102
South-East Asia: major growth in air transport: *D. Woolley:* 2/119
Controlling reservations bias: moves to give airlines equal placing on the travel agent's counter – *D. Woolley, P. Ray:* 2/123
Recovery in US scheduled traffic: 3/200
Air Canada takes action on cabin safety: 3/201
Bad year for airliner insurers in 1983: 3/201
Boeing's 737-300: a step into the 150-seat market – *G. Chambost:* 3/240
Accent on managerial ability in tomorrow's industry: 4/290
Canada and Singapore sign bilateral: 4/291
Commuter growth strong but declining, says FAA: 4/291
US industry losses reduced: 4/291
American pins future to MD-80: 4/293
Dornier 228: the commuter's new friend – *M. Lambert:* 4/311
Surviving airliner crashes: the record improves but more research is needed – *D. Woolley:* 4/317
Greenlandair: the key to a country's future – *D. Birch:* 4/321
The new US airlines: how their finances are faring: 4/325
Towards a European STOL airline?: 5/406
Cargo leads traffic recovery: 5/407
Commuter airliners: an embarrassment of riches – *B. Rek:* 5/423
US regionals grow and change – *D. Woolley:* 5/428
Flight management systems: wanted, but only when they work – *P. Condom:* 5/437
Pacific air transport: the competition gets hotter – *D. Woolley:* 5/445
American and the MD-80 – *B. Sweetman:* 5/447
Moves to make US reservations fairer: 6/528
Twins over water: rule change near?: 6/528
Netherlands and UK seek liberalisation: 6/529
50 seats: the new commuter battleground – *D. Woolley:* 6/581
Airbus takes the plunge: will Boeing follow? – *B. Rek:* 6/586
Aviation insurance – Will there be enough capacity? – *R. Sowter:* 6/593
Euro-deregulation: a fanfare too soon?: 7/638
The strong get stronger and the weak mark time: 7/638
Airline automation cuts costs – *D. Woolley:* 7/693
Autoland pays off – *C. Bulloch:* 7/697
El Al out of turbulence – *B. Rek:* 7/703
New rules emerging for twins over water: *D. Woolley:* 7/705
Singapore Airlines gives overbooking data: 8/738
Canada-US agreement helps regionals: 8/738
New entrants' yield is falling: 8/739
Netherlands-UK pact: did the Dutch win?: 8/739
Regulation v. competition: Canada's way – *D. Woolley:* 8/805
Flying hours: FAA takes a new look at rest times – *D. Woolley:* 8/807
Moment of truth for the ATR 42: as flight-test program begins – *P. Condom:* 8/813
BA privatization poses competition problems: 9/846
Maersk seeks to break out of Scandinavian straitjacket: 9/846
US profits improve – but still inadequate: 9/847
Air freight booms, but will it pay? – *D. Woolley:* 9/925
"With freedom comes responsibility": Air Canada's new President talks to Interavia: 9/928
The US majors: prosperity at last?: 9/932
Conflicting advice on noise suppression: 10/1004
Airlines climb out of the red – *D. Woolley:* 10/1033
The world's major airlines: 10/1043
Airliner purchases: 1983-84: 10/1070
Aid to Third-World airliners: ICAO and IATA tackle development difficulties – *D. Woolley:* 10/1074
Saab-Fairchild 340: operator's analysis – *J. Clostermann:* 10/1109
Continuing role for Cathay Pacific after 1997: 11/1152
Swiss pilots lose Athens appeal: 11/1152
UK policy review favours British Airways: 11/1153
Four years of expansion forecast by JAL: 11/1153
Electronic flight instruments – Second generation arrives, liquid crystals approach – *P. Condom:* 11/1197
Flight recorders: updating the standards – *D. Woolley:* 11/1201
Fair shares for all – the consortium airline solution – *Robert Sowter:* 11/1203
Electric power for ground support – *D. Woolley:* 11/1209
Civil engine overhaul and repair: the times are changing – *P. Condom:* 12/1303
Flying the Boeing 737-300 – *J. Clostermann:* 12/1307
Accident and fatality reduction – are there limits to improvement? – *D. Woolley:* 12/1315
Pan Am putting A300 into Caribbean service: 12/1281
Kennedy plans for growth: 12/1282
US industry not out of the woods yet: 12/1282
Long-term Atlantic fares pact agreed: 12/1282

GENERAL AVIATION

Further details of the GP-180: 1/15
BAe 125-800: It flies, but will it sell?: 1/15
Civil helicopters: 1984 is the year of change – *M. Lambert:* 1/37
S-76, Super Puma and JetRanger – *M. Lambert:* 1/41
Avionics for offshore helicopters: new equipment and new rule-books – *P. Condom:* 1/44
Business helicopter sales: will the market recover before the year-end? – *M. Grangier:* 1/48
Aviall – the best-kept secret in business aviation – *M. Grangier:* 1/70
Cessna: streamlining, or a last-ditch rescue?: 2/107
Encouraging the light trainer market: Enter the Swiss-Trainer – *M. Grangier:* 2/135
New outlook for Aeroleasing – *M. Grangier:* 2/170
Enter the Super King Air 300: 3/206
General Aviation forecasts: reality or wishful thinking?: 3/207
Falcon 900 v. Gulfstream IV – The score after Round 1 – *M. Grangier:* 3/219
Canadair Challenger 601: the up-market newcomer – *M. Grangier, M. Lambert:* 3/225
Gulfstream Aerospace gives Peregrine go-ahead: 4/298
NBAA members' fleet grow: 4/298
Sheriff goes into receivership: 4/299
A new light single-engined turboprop: 4/299
Business twin turboprop: a wider, but more complex, choice – *M. Grangier:* 4/305
Israel's new star rises: 5/408
Gulfstream tests propfan: 5/408
New light on the GP-180: 5/408
Canguro program finally under way: 5/409
Will the new commuters sell as business aircraft? – *M. Grangier:* 5/433
Beech unveils low-cost maritime patrol Air King: 6/531
Aeroleasing Geneva: first European Falcon 200 operator: 6/534
GAMA worried about foreign competition: 6/535
Buy new, or refurbish: the trends are becoming clear – *M. Grangier:* 6/599
Aerial surveillance: Edgley and Partenavia air their views – *M. Grangier:* 6/602
Back to the 50HP aeroplane – *M. Lambert:* 7/707

Avtek 400 and Lear Fan 2100 Progress: 8/740
Watch over the waves: multiple choice for sea sentinels – *B. Wanstall:* 8/761
Business aviation in Britain: leader in Europe – *M. Grangier:* 8/793
Air-taxi companies play the European card – *M. Grangier:* 8/795
Should you buy or lease your business aircraft? – *M. Grangier:* 8/799
United States general aviation statistics, 1982: 9/848
BAe 125-800 forges ahead: 9/848
Lockheed DataPlan: 9/848
Mitsubishi: the Diamond II is coming: 9/849
From JetStar to FanStar: 9/856
The cost of business aircraft. Whose figures to believe – *M. Grangier:* 9/873
The leading business turboprops and jets – *M. Grangier:* 9/877
Partenavia's Spartacus. Speed and comfort in a small turboprop – *M. Lambert, M. Grangier:* 9/883
US GenAv industry: the corpse twitches: 10/1005
Voyager: in search of the last great record – *B. Sweetman:* 10/1116
Medevac A109: one years operation: 11/1156
Learfan: certification in stages?: 11/1157
An agricultural canard: 11/1158
General aviation in the USA – a look at tomorrow's aircraft – *M. Grangier:* 11/1246
NBAA 1984 – Even a crisis has its good side – *M. Grangier:* 12/1295
New EFIS/EICAS systems for business jets – Bendix determined to catch up with better products – *M. Grangier:* 12/1348
The Robin ATL – a good basic trainer – *G. Chambost:* 12/1350
Agusta and Sabreliner discuss business-jet collaboration: 12/1285
Re-engining piston twins – a flourishing business: 12/1285
US business aircraft market: used models have upper hand: 12/1284

AIRPORTS

International gateway for Riyadh: 1/12
One Airport – four Cat III runways: 1/13
Miami Airport takes up noise campaign: 6/528
Airport finances in a changing world – *D. Woolley:* 7/700
Airports regroup for new battle: 10/1004
Electric power for ground support – *D. Woolley:* 11/1209

AIR TRAFFIC CONTROL

Keeping the traffic flowing: is monopulse SSR the next big market? – *D. Boyle:* 1/59
Controlling airport ground traffic: is radar necessary? – *D. Woolley:* 3/244
The MLS order: A vast market opens up – or does it? – *C. Bulloch:* 3/247
Canada leads with stand-alone SSR – *D. Woolley:* 9/921

MILITARY AVIATION

Go ahead for Franco-German helicopter: 1/16
Australia boosts defence spending: 1/16
'Helicopter 90' for the German Navy: 1/17
The 'affordable' fighter market – *B. Wanstall:* 1/23
Eyes and ears for the export fighter: is radar a necessity? – *C. Bulloch:* 1/29
Integrating the NATO AEW Force – *B. Wanstall:* 1/33
At last, a US/FRG air defence agreement: 2/105
Five air forces take a major step towards a European fighter: 2/106
Basic military trainers: thriftier and less thirsty – *B. Wanstall:* 2/127
Anti-aircraft weapons for the 1990s: France comes to grips with the problem – *P. Condom:* 2/144
New US Navy ejection seat competition: 3/202
FY 1985 Pentagon budget: the biggest-ever request: 3/203
France wins major Saudi defence contract: 3/204
The two-way street: what hope for change? 3/233
B-1B continues on target – *M. Lambert:* 3/252
The Soko G-4 Super Galeb: a new competitor in the trainer market – *B. Wanstall:* 3/255
Optronics for PAH-2/HAC/HAP: strangers in the sight... – *P. Condom:* 3/258
AST 404 – RAF tactical transport helicopter for the 1990s: 4/294
Upgrading Norwegian air defences: 4/295
France and the Two-Way Street: Interavia interviews Emile Blanc, Permanent Secretary for Defence Procurement: 4/303
Is 1984 the year of the Tigershark – *M. Lambert:* 4/363
Argentina's IA-63: stepping stone to 1990s technology – *B. Wanstall:* 4/367
Peacekeeper and the small ICBM – *M. Lambert:* 4/371
Matra's Martel successor: 5/412
RAF trainer field is narrowed: 5/413
Joint STARS/JTACMs approach RFP stage: 5/413
Firecracker looking for a home market – *M. Lambert:* 5/453
European armies enlist drones for air support: German industry working on new roles – *B. Wanstall:* 5/479
1,000 cruise missiles delivered: what comes next? – *M. Lambert:* 5/485
Agusta: the year of the Mongoose – *M. Grangier:* 5/491
The PC-9 trainer – five minutes to 15,000ft in a turboprop: 6/530
US Defense Department cuts FY85 budget request: 6/532
A single seat combat Hawk: 6/533
View from the top: intelligence-gathering from aircraft and spacecraft – *C. Bulloch:* 6/543
Who can afford airborne early warning aircraft? – *P. Condom:* 6/551
How heavy is a C-5? Interavia tried to find out – *M. Lambert:* 6/556
US Army/Air Force responsibilies rationalised: 7/641
Detecting helicopters and RPVs: new threats provoke new countermeasures – *P. Condom:* 7/665
Tight timetable for Euro-fighter: faltering on funding, compromising on capability – *B. Wanstall:* 7/669
Leasing business aircraft – USAF happy, Congress not amused – *R. Lopez:* 7/671
Stand-off to strike – and survive – *B. Wanstall:* 7/673
Peacekeeper production curtailed: 8/745
NATO E-3As – effective eyes in the sky: 8/745
Watch over the waves: multiple choice for sea sentinels – *B. Wanstall:* 8/761
Patriot delayed but Patriot/Roland deal goes ahead: 9/853
Tornado dominates German defence spending: 9/853
Saudi-Arabia, a Tornado customer?: 9/854
USSR – weapon procurement spending up: 9/855
ASRAAM design firms as interest increases – *B. Wanstall:* 9/903
Speed-sensing seats: Martin-Baker adapts to stay ahead – *B. Wanstall:* 9/961
Cure for F/A-18 cracks: 10/1006
Three year agreement on Danish defence funding: 10/1007
Anti-ship missiles – the sea-skimming threat – *B. Wanstall:* 10/1085
Advanced military flight control systems. USA prepares for next generation – *B. Sweetman:* 10/1091
Grumman X-29 rolls out, prepares for flight: 11/1159
Crew error and capsule malfunction cited in B-1A crash: 11/1160
Soviet Far East build-up: 11/1160
Tigershark: stronger or weaker? 11/1161
Patriot SAM system ready: 11/1161
Helicopter versus helicopter: the problem is fire control – *P. Condom:* 11/1173
Vertical counter to a horizontal threat-will sea-skimming missiles meet their match – *B. Wanstall:* 11/1175
Sting like a bee: the new light helicopters – *M. Lambert:* 11/1183
The $500,000,000 radar prize – *D. Boyle:* 11/1189
Military aircraft retrofit – delaying the new buy – *B. Wanstall:* 11/1218
From AV-8B to the ASTOVL – *B. Sweetman:* 12/1324
Integral rocket ramjets for long legs at supersonic speeds – *B. Wanstall:* 12/1331
Air combat simulation steps forward in Europe – *D. Boyle:* 12/1336
Australian Government gives priority to defence: 12/1286
West German Cabinet approves long-term defence plans: 12/1287
USAF plans pilot training change – and new trainer: 12/1287

SPACE

What comes after Spacelab?: 1/18
Colino plans to defend Intelsat on proven facts: 1/19
Soviets admit to 'shuttle', heavy launcher programs: 2/104
The space station race – is there one?: 2/104
Insuring spacecraft: how long can the losses continue?: – *C. Bulloch:* 2/163
Spacelab first results: Europa looks forward to more equial collaboration – *C. Bulloch:* 2/166
US anti-satellite weapon tested: 3/204
Pentagon hopes to double space-based defence spending: 3/205
NASA budget grows, but only just: 3/205
DBS doubts: Confusion and anxiety in satellite TV broadcasting – *C. Bulloch:* 3/263
Commercial space launchers: a new industry struggles to be born – *C. Bulloch:* 4/335
French space spending up one-third: 5/414
French TV satellite: up to Luxembourg: 5/415
Solar Max repair successful: 5/415
Space communications move into the millimetre-wave bands – *C. Bulloch:* 5/461
Aérospatiale and MBB found a new satellite dynasty – *C. Bulloch:* 5/465
Italian space programs: a lot of energy in search of an agency – *C. Bulloch:* 5/469
Foreign participation in NASA space station: problems begins to emerge: 6/536
Will the US bar Proton for Inmarsat?: 6/537
After Solar Max: NASA sees bright future for satellite refurbishment – *C. Bulloch:* 6/597
Airlines cool on aeronautical satellites: 7/642
Europa verus Luxembourg?: 7/642
Arianespace charged with unfair pricing: 7/643
Material processing in space: plenty of prophets, but what about profits? – *C. Bulloch:* 7/679
UK DBS: What will fly, and when?: 8/742
Earth observation from space: how clouded is the long look down – *C. Bulloch:* 8/751
Intelsat builds its defences against competition – *C. Bulloch:* 8/756
Ariane 3 makes its debut: 9/850
Space weapons talks unlikely – yet: 9/852
Ariane 5 takes a big step forward: Europe's big booster for the end of the century – *C. Bulloch:* 9/941
The Columbus project: a space station for all seasons? – *C. Bulloch:* 9/947
ESA's Prosat program moves ahead: 10/1008
NASA places Space Tug contracts: 10/1009
MSAT to go commercial – Canada plans to share mobile satellite system with USA – *C. Bulloch:* 10/1099
Largest Shuttle crew, satellite rescue plans: 11/1162

Italian industry makes Ariane bid: national agency hopes and doubts: 11/1163
Satellite communications – The ground sector grows – *C. Bulloch*: 11/1231
New launch facilities for Ariane – *D. Boyle*: 11/1237
Telecom 1 – Europe's first domsat goes on line – *C. Bulloch*: 11/1242
The "Tuna Can" in orbit: Leasat/Syncom IV approaches operational status – *C. Bulloch*: 12/1345
Europe's space station contribution – could it miss the boat? 12/1288
Luxembourg: the saga continues: 12/1288

INDUSTRY

Fokker to stay in markets it knows best: 1/14
Selling simulation experience: airlines and manufacturers venture into the market – *D. Boyle*: 1/63
Exciting times for McDonnell Douglas: 2/103
India's aerospace industry: impressive achievements by a developing country – *H.P. Mama*: 2/149
Egypt rebuilds its aircraft industry – *M. Lambert*: 2/157
The Fokker jigsaw puzzle: complete at last? – *B. Rek*: 2/173
Airbus A320 clears financing hurdle: 4/292
BAe gives go-ahead for ATP – at last: 4/293
Egypt co-producing defence radars: 4/295
West Germany's aerospace industry: tailored for co-operation: 4/345
A new era for Marshall – *N. Cook*: 4/379
Promoting aerospace in Holland: Interavia talks to the NIVR Chairman: 4/387
The A320's cornucopia of new technology: 5/410
Boeing and Japan: less than meets the eye?: 5/411
New Fokker airliners get Government green light: 5/411
Commuter airliners: an embarrassement of riches – *B. Rek*: 5/423
Aerospace in Israel: reaching for self-sufficiency – *B. Rek, D. Boyle*: 6/565
50 seats: the new commuter battleground – *D. Woolley*: 6/581
Airbus takes the plunge – will Boeing follow? – *B. Rek*: 6/586
Aerospace electronics in Italy – *C. Bulloch*: 6/606
BAe plans further stretch for 146: 7/640
Dornier's Seastar readied for first flight: 8/741
Aérospatiale posts loss for 1983: 8/744
Watch over the waves: multiple choice for sea sentinels – *B. Wanstall*: 8/761
UK aerospace: an end to the decline?: 8/775
Moment of truth for the ATR 42: as flight-test program begins – *P. Condom*: 8/813
The US big five cash in on defence: 8/818
Looking for long-term partners: Interavia interviews William F. Paul, President of Sikorsky Aircraft: 8/829
Short-term problems for the French industry: 9/857
DC is gone, but Douglas is back – *B. Sweetman*: 9/915
The Italian aerospace industry faces up to the crisis: Interavia talks to Raffaello Teti, 1983-84 President of the Italian Aerospace Industries Association (AIA): 9/984
Aviointeriors gets to grips with growth – *M. Grangier*: 10/1120
Nurtanio: the industry with a future – *M. Lambert*: 10/1123
An agricultural canard: 11/1158
UDF and PropFan 11/1159
The $500,000,000 radar prize – *D. Boyle*: 11/1189
Military aircraft retrofit – Delaying the new buy – *B. Wanstall*: 11/1218
China: the prospects for aerospace trade: 11/1221
Who will be at the Beijing Show?: 11/1223
Grumman X-29 rolls out, prepares for flight: 11/1159
Civil engine overhaul and repair: the times are changing – *P. Condom*: 12/1303
Speech recognition making progress – Direct Voice Input is a promising infant – *C. Bulloch*: 12/1319
Brazilian aerospace comes of age – *P. Condom*: 12/1339
Skytrader makes progress: 12/1283

TECHNOLOGY

Laser communications – *D. Boyle*: 1/34
OSRA points to future STOL aircraft – *B. Sweetman*: 1/68
Future airliner flight decks: Harnessing the new technology – *P. Condom*: 2/113
Computer-Based Training: Simulating the simulator: 2/132
Military simulation: pushing the visual technology – *D. Boyle*: 2/139
View from the top: intelligence-gathering from aircraft and spacecraft – *C. Bulloch*: 6/543
Detecting helicopters and RPVs: new threats provoke new countermeasures – *P. Condom*: 7/665
Carbon brakes: the competition heats up – *P. Turk*: 9/980
Looking around at visuals – *D. Boyle*: 10/1077
Aluminium-lithium alloys: massive investment in a new material – *P. Condom*: 11/1261

ENGINES

Powering the light combat aircraft – *P. Condom*: 1/27
Making low-powered turboshaft engines smaller and simpler – *P. Condom*: 1/85
Ceramic technology: what price the pottery powerplants? – *P. Condom*: 5/508
A diesel engine for light aircraft: 6/534
RB199 to XG-40: stretch stops but technology transfers – *B. Wanstall*: 6/557
GE looks to the next ten years: Interavia talks to Brian Rowe: 6/619
Big changes in the airliner engine world: balancing reliability, maintainability and cost – *P. Condom*: 7/687
Snecma and GE present the CFM56-5: 8/743
Power for the ATF: GE and P&W prepare for battle – *P. Turk*: 9/895
Allison's future is on fixed wings – *B. Sweetman*: 9/956
UDF and Prop-Fan: 11/1159
Integral rocket ramjets for long legs at supersonic speeds – *B. Wanstall*: 12/1331

ELECTRONICS

Flight management system: wanted but only when they work – *P. Condom*: 5/437
Fly-by-wire British style – *D. Boyle*: 9/899
Advanced military flight control systems – USA prepares for next generation – *B. Sweetman*: 10/1091
Electronic flight instruments – Second generation arrives, liquid crystals approach – *P. Condom*: 11/1197
New EFIS/EICAS systems for business jets – Bendix determined to catch up with better products – *M. Grangier*: 12/1348

INTERNATIONAL CONFERENCES AND EXHIBITIONS

International meetings and conferences: 1/20, 2/108, 3/208, 4/300, 5/416, 6/538, 7/644, 8/746, 9/858, 10/1010, 11/1164, 12/1290
New satellites at Telecom 83: spacecraft builders chase a growing market – *C. Bulloch*: 1/75
Germany's air show set to stay in Hanover – *D. Seidl*: 2/109
Helicopter sales: the tears can stop. Report from the 1984 Helicopter Association International Show in Las Vegas: – *M. Lambert, B. Sweetman*: 3/211
Asian Aerospace '84: an exhibition at the heart of a market: 3/266
Hanover in the shadow of A320, PAH-2 and the European fighter – *M. Lambert*: 5/496
The message of FIDA 84: the embargo of Chile creates an aerospace industry – *P. Condom*: 5/500
ILA 84: A show in search of an identity: 7/649
Growth, optimism and controversy: US regional scene lively as ever – *D. Woolley* and *S. Barzyk* report on the RAA Convention and Trade Mart: 7/657
First Cosmo show at Barcelona: 8/744
AFCEA show report: *R. Lopez, J. Rhea, F.C. Berry Jr.*: 8/767
Farnborough International 84: With the Russians and without Lockheed: 9/861
Business as usual – Farnborough finds the world's aerospace industry in good form: 10/1017
China – the prospects for aerospace trade – *B. Rek*: 11/1221
NBAA 1984 – Even a crisis has its good side – *M. Grangier*: 12/1295
Undercurrents of discontent at IATA meeting: 12/1280

DATA TABLES

1984 Helicopter choice: 1/38
World scheduled revenue traffic: 1979-1983: 3/200
GAMA: aircraft deliveries in 1983: 3/207
Jet airliner order and delivery record: 4/293
Interavia Commuter Airliner Survey: 5/424
Maritime Surveillance Aircraft: 8/764
The leading business turboprop and jets – *M. Grangier*: 9/877
The world's major airlines: 10/1043
Airliner purchases: 1983-84: 1070

REGULAR FEATURES

Editorials:
The Middle East gunsmith: 1/9
Time: the vital factor: 2/99
The US space station: an opportunity not to be wasted: 3/197
What happens after sunset? 4/287
The price of silence: 5/403
Can the global village survive under open skies?: 6/525
Two's company, three's a crowd: 7/635
A tree needs roots: 8/735
Space power – shared or separate? 9/843
US competition will get tougher: 10/1001
A technology where Europe leads: co-operation 11/1149
European co-operation – the missing link: 12/1277
Our correspondents report: 1/11, 2/101, 3/199, 4/289, 5/405, 6/527, 7/637, 8/737, 9/845, 10/1003, 11/1151, 12/1279
World of aerospace: 1/11, 2/101, 3/199, 4/289, 5/405, 6/527, 7/637, 8/737, 9/845, 10/1003, 11/1151, 12/1279
Airliner purchases: 1/13, 2/102, 3/201, 4/291, 5/406, 6/529, 7/639, 8/739, 9/846, 10/1004, 11/1153, 12/1282
People: 1/20, 2/108, 3/208, 4/300, 5/416, 6/538, 7/644, 8/746, 9/858, 10/1010, 11/1164, 12/1280
Technology, products, markets: 1/79, 2/179, 3/269, 4/381, 5/503, 6/613, 7/711, 8/823, 9/969, 10/1129, 11/1255, 12/1355
Letters to the Editor: 10/1009, 11/1157
Books received: 10/1010, 12/1290

AUTHORS

Barzyk, Sharon
Growth, optimism and controversy: US regional scene lively as ever. Report on the RAA Convention and Trade Mart: 7/657

Berry jr F. Clifton
AFCEA show report: 8/767

Birch, Doug
Greenlandair: the key to a country's future: 4/321

Boyle, Dan
Laser communication: 1/34
Keeping the traffic flowing: is monopulse SSR the next big market? 1/59
Selling simulation experience: airlines and manufacturers venture into the market: 1/63
Military simulation: pushing the visual technology. 2/139
Aerospace in Israel: reaching for self-sufficiency: 6/565
Fly-by-wire British style: 9/899
Looking around at visuals: 10/1077
